## Position Opening: Field Technician

Cozy Home Performance LLC is a fully integrated building performance company providing energy assessments and complete building retrofit services. Our primary goal is to provide solutions that increase the comfort, health, energy efficiency, and durability of buildings. Markets served include residential, multi-family, commercial, and institutional through western Massachusetts and beyond.

Cozy Home Performance is looking to hire a Field Technician. This opportunity is in direct response to an increased demand for advanced building performance services attributed to our company's reputation for excellence and recent utility program opportunities. Additionally, our outlook is positive as there is a greater societal awareness of the necessity to reduce fossil-fuel energy use through advanced building energy performance solutions.

### Field Technician :

The field technician reports directly to the Crew Manager. As part of a dynamic and skilled team of experienced Technicians, your primary objective is to install various building performance materials and assemblies to exacting specifications as delegated by the Manager and senior Technicians. Your success will be demonstrated by your ability to apply what you learn, follow instructions, and communicate effectively as a professional. The work will be difficult and dirty. Maintaining the required balance between physical stamina and mental focus will be challenging. You will need to show commitment to the purpose of our work and have a consistent level of energy and positive mental state. Our company is built upon high standards of professionalism. We value respectful and honest communication within the company and with our clients. Self accountability is taken seriously. Tasks include, but are not limited to:

- Work in a wide variety of building environments including crawl-spaces, attics, and basements
- Perform targeted, general/advanced air sealing
- Install insulation including cellulose, spray foam, and rigid foam insulation
- Clean and maintain equipment: have a high standard for organization.

- Follow health and safety personal protection protocols
- Install ventilation components- mechanical and passive
- Represent Cozy Home Performance in a professional manner when in dialogue with clients.

## Requirements:

- Home Performance, weatherization, carpentry or insulation experience
  - Strong interest in building science, and systems thinking
  - The ability to work and maintain focus in dusty small spaces.
  - Be consistently attentive to detail and organization.
  - Communicate directly and honestly with team members and clients
  - The willingness to learn and invest in self promoted professional growth.

Preference will be given to:

- BPI B/A or other BPI certifications
- Experience working to Mass Save program Standards (assessments or installs)
- Comfort working in small, confined spaces
- Experience with HVAC systems

To apply, submit a cover letter, resume and references to [info@mycozyhome.org](mailto:info@mycozyhome.org)

Thank you for your interest.

Adin Maynard  
Director of Operations  
Cozy Home Performance
